

# 12 Flatback Paper Tape

## Tape With Thermosetting Rubber Pressure-Sensitive Adhesive

### Data Sheet

#### Applications

For banding coils and for cover on bobbin-wound coils.

<b>Properties</b>	<b>Typical Values</b>
Adhesive	Thermosetting Rubber
Operating Temperature	105°C/221°F
Total Thickness	5.5 mil/0.140 mm
Dielectric Breakdown	2000 volts
Insulation Resistance	>1 x 10 <sup>6</sup> megohms
Breaking Strength	30 lb./in (53 N/mm)
Adhesion to Steel	45 oz/in (4,9 N/mm)

Technical information provided consists of typical product data and should not be used for specification purposes. Unless otherwise noted, all tests are performed at room temperature.

Important Notice

Technical information provided by 3M is based on experience and/or tests believed to be reliable, but their accuracy is not guaranteed and the results may not be relevant to every user's application. For this reason 3M does not accept responsibility or liability, direct or consequential, arising from reliance upon any information provided and the user should determine the suitability of the products for their intended use. Nothing in this statement will be deemed to exclude or restrict 3M's liability for death or personal injury arising from its negligence. All questions of liability relating to 3M products are governed by the seller's terms of sale subject where applicable to the prevailing law

If any goods supplied or processed by or on behalf of 3M prove on inspection to be defective in material or workmanship, 3M will (at its option) replace the same or refund to the Buyer the price paid for the goods or services. Except as set out above, all warranties and conditions, whether express or implied, statutory or otherwise are excluded to the fullest extent permissible at law.
